EDITORIAL

The International Journal of Applied Biological Research provides rapid publication (biannually) of articles in all areas of pure and applied Biology, such as Environmental Biology, Agricultural Science, Clinical Microbiology, Immunology, Virology, Bacteriology, Phycology, Mycology and Parasitology, Protozoology, Microbial Ecology, Probiotics and Prebiotics, Molecular Biology, Biotechnology, Food Microbiology, Industrial Microbiology, Cell Physiology, Environmental Biotechnology, Genetics, Enzymology, Cellular Biology, Plant Pathology, Entomology, Biomedical Sciences, Botany and Plant Sciences, Soil and Environmental Sciences, Zoology, Endocrinology, Toxicology, Pollution, Medicine and Pharmacy. The Journal welcomes the submission of manuscripts that meet the general criteria of significance and scientific excellence. Papers will be published approximately two months after acceptance. All articles are peer-reviewed.

Four types of manuscripts may be submitted:

Regular articles: These should describe new and carefully confirmed findings, and experimental procedures should be given in sufficient detail for others to verify the work.

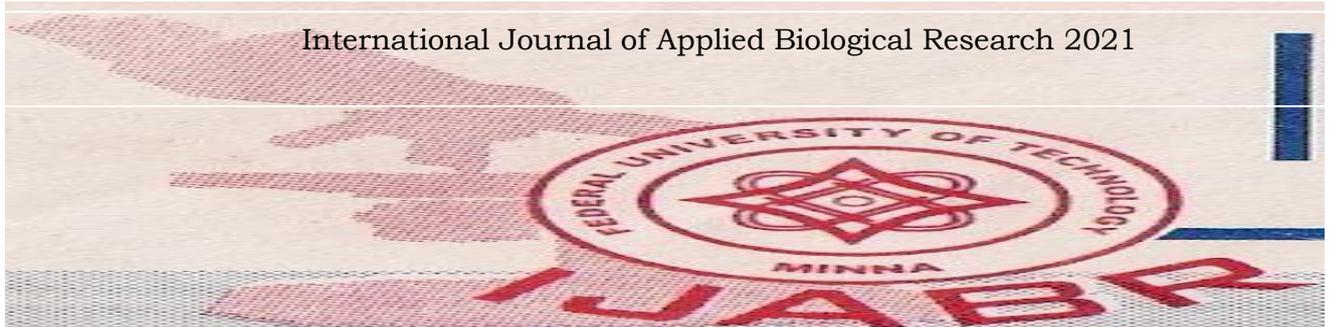

Short Communications: A Short Communication is suitable for recording the results of complete small investigations or giving details of new models or hypotheses, gene isolation and identification, innovative methods, techniques or apparatus.

Reviews: Submissions of reviews and perspectives covering topics of current interest are welcome and encouraged.

Commentaries/Research Notes: General comments on related issues are published.

I wish to express my profound gratitude to the editorial team for making this publication a reality.
